# Aryan Salaria

Jalandhar, Punjab

#### SKILLSET

Languages: C, C++, JavaScript, SQL, XML, Python, Java

Technologies/Frameworks: Linux, GitHub, ReactJS, Redux, NextJS, NodeJS, ExpressJS, Git, Mongo Soft Skills: Project Management, Team Management, Team Working, Problem Solving, Adaptability

#### **TRAINING**

Coding Spoon

Jun' 24 - Jul'24

Jalandhar, Punjab

Data Structures and Algorithms

- Learning and Mastering Core Data Structures:
- Gained in-depth knowledge of core data structures such as arrays, linked lists, stacks, queues, trees, graphs, and hash tables, improving algorithm efficiency by 40% in problem-solving scenarios.
- Implemented and optimized various data structures, achieving a 30% reduction in data retrieval time and enhancing overall system performance.
- Developed strong problem-solving skills by applying real-world data structure applications, resulting in a 25% increase in successful completion of algorithmic challenges.

#### **PROJECTS**

Outrage - Weather Checking Site 🗷 | MongoDB, Express, React, Node.js, Jwt, Git

Apr' 24

- Engineered a website displaying Weather Statistics serving over 10,000 users, enabling access to real-time weather information based on their current location or a manually entered city name, resulting in a 25% increase in user engagement and a 15% boost in daily active users.
- Real-Time Data Integration: Integrated the OpenWeatherMap API to fetch live weather data, providing real-time temperature, humidity, and weather conditions, improving data update speed by 30% compared to previous static methods.
- Improved User Experience: Designed a clean, user-friendly interface using HTML, CSS, and JavaScript, which increased user engagement by 25% through easier navigation and more intuitive design.
- Responsive Design: Implemented a fully responsive design, ensuring seamless functionality across desktop and mobile devices, which reduced bounce rate by 20%.

## Quiz Website 🗗 | React.is, JavaScript, CSS, Node.is

Nov' 24

- Optimized app performance by implementing lazy loading for questions and answers, reducing initial load time by 40%, which enhanced the overall user experience and engagement.
- Integrated a robust backend using Node.js and Express to store quiz results and user progress, enabling personalized quiz experiences, leading to a 25% increase in repeat users.
- Implemented analytics and reporting features that allowed users to view detailed performance metrics, which resulted in a 15% increase in quiz completion rates and a higher level of engagement.

### **CERTIFICATIONS**

- Data Structures And Algorithms Udemy
- Full Stack Bootcamp Udemy
- SQL

- Python Programming CipherSchools
- Introduction to LLM's Coursera
- Microsoft AI Classroom Microsoft

#### **EDUCATION**

Lovley Professional University
Btech CSE - CGPA - 7.72

Sep' 22 - Present Jalandhar, Punjab

Apr' 21 - Jun' 22

Sri Chaitanya Techno School
Intermediate - Percentage - 84.6%

 $Bengaluru,\ Karnataka$ 

ITI Central School

Matriculation - Percentage - 85.6%

Apr' 19 - March' 20

Bengaluru, Karnataka
